2	0.30	Fragrance White Gardenia	Parfum (Fragrance)	Parfums Plus	Fragrance

### Procedure

1. In the main vessel, weigh phase 1 and heat up to 80-85°C with gentle shear mixing. Then, mix using the Silverson mixer.
2. Start cooling. When the temperature is at 60°C, add phase 2 and homogenize (5min).
3. Pour the product into a suitable container.
